

REMARKS

Entry and consideration of this Amendment are respectfully requested.

Claims 5, 11, 19, 25, 33, and 39 have been amended to include sequence identifiers in response to the Notice to Comply.

A new substitute specification replaces the specification filed June 10, 2005. In response to the Notice to Comply, the specification has been amended to include sequence identifiers.

A new Substitute Sequence Listing also replaces the Sequence Listing filed June 10, 2005, in response to the Notice to Comply.

In addition, SEQ ID NO:3 in the Substitute Sequence Listing has been corrected for a duplication error in the sequence listing. Namely, in the Sequence Listing filed June 10, 2005, SEQ ID NO: 3 was a duplicate of SEQ ID NO: 2. Accordingly, SEQ ID NO:3 has been corrected to recite the sequence shown in Figure 4 of the specification. Support for the amendments to the sequence listing can be found in Figure 4 of the originally filed specification.

Accordingly, no new matter is added.

Respectfully submitted,
